Israel Extends Hunt For Count's Assassin

Believe Stern Gang Shot Bernadotte

Tel Aviv, Israel, Sept. 18—(AP)—The Israeli government announced tonight that its intensive manhunt for the assassin of Count Folke Bernadotte has resulted in the arrest of "some of the supposed leaders of the Stern gang."

The government has charged the Sternists, a Jewish extremist group, with the slaying of the United Nations mediator and his French aide, Col. Andre Serot, in the Jewish part of Jerusalem yesterday.

Israeli authorities began moving Jewish troops into position in the fear that the shooting down of Bernadotte and Serot might be followed by a full-scale war with the Arabs. Make 200 Arrests

The Israeli announcement said more than 200 arrests have been made in the attempts to comb out the killers. Jerusalem's 90,000 Jewish residents have been placed under virtual house arrest by a curfew order.

House-to-house searches brought 150 arrests in Jerusalem and the seizure of a considerable quantity of arms, the announcement said. Fifty arrests were made in other portions of Israel, including 40 in the Tel Aviv area.

A spokesman said the Israeli army has invited members of the U.N. staff who witnessed the assassinations to view a parade of suspects which probably will be held tomorrow.

Ask Jews For Help
Jews were called upon to rise and track down the "traitors in our midst" and the "criminal gang responsible" for the slayings. All roads into Jerusalem were closed. No departures were allowed from Israel's airfields and harbors in order to prevent suspects from slipping out of the country.

Meanwhile, high United Nations officials in Haifa disclosed that a recommendation may be sent to the security council in Paris calling for the creation of a 6,000-man international army.

Such a force, the informants said, is the minimum now believed to be required for the job of compelling Jews and Arabs to accept the authority of the U.N. over the Holy City.

Count Wanted Garrison
They said Bernadotte, in an abortive attempt to persuade the warring sides to denationalize Jerusalem two months ago, had in mind an international force of 2,500 to 3,000 to garrison Jerusalem. Fierce battles which since have taken place during the "shooting truce" were said to have convinced him before his death that he had greatly underestimated the military pressure which would have to be applied.

One veteran of the U.N. mission to Palestine said the assassination of Bernadotte "may finally open up the eyes of the world powers to the fact that you can't get anywhere in peace efforts here by shooting the opposing sides full of moral holes with resolutions."

Illinois Farmer Wins National Plowing Contest

Dexter, Iowa, Sept. 18—(AP)—Paul Stiefbold, Naperville, Ill., the 1946 national champion, today won the national level land plowing contest, division of the national plowing contest near here today.

Herbert Jones of Colo., Iowa, won the Corn Belt Open Level Land contest.

Stiefbold's score was 91.33 points out of a possible 100. In second place was Graeme Stewart of Plainfield, Ill., with a score of 86.66. Leo Drake, Memphis, Mo., the defending champion, was third with a score of 83.67.

In the Corn Belt Open Level event Hugh Elson of Waukegan, Iowa, was second and Donald Hanson of Radcliffe, Iowa, was third.

Harrison Link of Tingley, Iowa, won the Corn Belt Open Contour match. Second was Welby Dixon, Toledo, Iowa, and third was Lewis Messner of Stanberry, Mo.

The crowning of 22-year-old Jean Carter of Dallas Center, Iowa, as plowman's queen had opened the event in which 41 plowmen from 11 states completed.

ILLINOIS MAN DIES IN AUTO WRECK

Chicago, Sept. 18—(AP)—Elton B. Belzer, 33, of (Route 1) Palatine, Ill., was killed today when his automobile left the road and hit a tree on Dundee road just east of Palatine.

Belzer, a sewage treatment engineer, was en route home from work. He was employed at the sewage disposal plant in suburban Arlington Heights.

Wounded In Bernadotte Assassination

Col. Frank Begley (above), American UN Security Officer, was slightly wounded in Jerusalem when he was grabbed with one of the assassins of Count Folke Bernadotte. UN Mediator Bernadotte was shot and killed with a French officer while hiding through the city in a jeep.

South Africa Termed Anti-Red; With West Powers

Capetown, South Africa, Sept. 18—South Africa's hatred of communism has lined her up with the western powers despite anti-British feeling of some leaders in her new nationalistic-Afrikaner government.

Western fears that this strategically placed British dominion might retire into neutral isolation—as Eire did in the last war—have largely disappeared in recent weeks.

Field Marshal Jan Smuts' pro-empire government was toppled in last spring's elections. Smuts was succeeded as prime minister by Dr. Daniel F. Malan, 74-year-old Nationalist party leader who long has advocated pulling out of the British commonwealth.

Malan formed a cabinet that includes no ministers of British ancestry or pro-empire leanings.

But in his first few months of power, the Nationalist leader has done little to support early opposition predictions that his government would take an independent Republican course.

The situation has changed since Malan and his supporters of Dutch ancestry favored neutrality in the two World Wars against Germany.

Western Envoys Meet With Molotov

Moscow, Sept. 18—(AP)—The western envoys met today with foreign Minister V. M. Molotov possibly to receive final Russian word on proposals for settling the Berlin crisis.

The usual secrecy surrounding the session—the 11th in the Kremlin on East-West differences in the past 51 days and the second this week. U. S. Ambassador Walter Bedell Smith told newsmen after today's talks:

"The three western envoys had a delightful two hour and 30 minute talk with Mr. Molotov. I have no comment."

He would not say whether the meetings were at an end or would be continued.

OVER 800 JAPANESE DIE IN FLOODS

Tokyo, Sept. 18—(AP)—Japanese officials reported a total of 858 Japanese dead and about 700 missing today in the wake of typhoon-born floods in central and northern Honshu.

The floods hit 10 prefectures Thursday night and Friday.

Japanese casualty figures generally are exaggerated, but occupation authorities indicated loss of life was considerable and property damage ran into millions of yen.

PREP FOOTBALLER BREAKS LEG

Freeport, Ill., Sept. 18—(AP)—A 16-year-old substitute center on a high school football team suffered a compound fracture of the left leg today during a hard-fought game between prep teams from Rockton and Freeport.

Lloyd Terry, son of Mrs. Nellie Terry of Rockton, was taken from the field in an ambulance during a game in which his team, Honnongah, high school of Rockton, defeated Aquin high of Freeport 6 to 0.

Vassar College, demurring at granting women a "bachelors' degree, admitted its early graduates to the "first degree of liberal arts."

India Installs Military Rule In Hyderabad

New Delhi, Sept. 18—(AP)—India cracked down today on Hyderabad by appointing a military governor for the conquered princely state.

This step was taken by the dominion of India as Hyderabad state troops surrendered unconditionally and a triumphant Indian armored column marched into Secunderabad, military garrison for the capital of Hyderabad.

A 7 p.m. to 6 a.m. curfew was clamped on Hyderabad city, the capital.

Orders were issued for the arrest of Qazim Razvi, the fiery Moslem leader who had vowed Holy War if India dared put foot on the "Holy Islamic soil of Hyderabad."

Reliable sources said India would order dissolution of the Razvi, the private army of Razvi. Whereabouts of Razvi was not known.

Prime Minister Jawaharlal Nehru in a radio broadcast tonight congratulated all of India, including Hyderabad, for restraint and discipline and said "let there be no talk of communal and other false doctrines and ignoble urges giving rise to that antagonism."

Nehru shed no light on the future status of the Nizam.

Political sources and the Indian Press were critical of the Nizam's cease fire proposal and the announcement that he had formed a new cabinet.

They said the Nizam had done nothing which he had not been asked to before the invasion was launched. They say the situation is changed now with the defeat of the Nizam's armed forces and that it is not up to the Nizam to say what should be done in the future.

The triumphant entry into Secunderabad came six days after India invaded Hyderabad for the announced purpose of restoring order in the state.

The invasion was the climax to steadfast opposition by the Nizam to Indian demands that Hyderabad join the dominion. Yesterday the Nizam bowed to the superior Indian forces and issued a cease fire order.

Chicago Residents See New Giant B-36 Bomber

Chicago, Sept. 18—(AP)—Residents of the Chicago area had a look at the army's new giant B-36 bomber today.

As part of the Air Force Day observance, the big plane flew low over the city and its environs. The plane was one of five which were sent on show-off tours by the Air Force.

Flying a non-stop round trip from its base at Ft. Worth, Tex., the plane seen here also visited seven other midwest cities.

As tall as a four-story building—46 feet, seven inches from wheels to tail tip—the huge bomber is 163 feet long, 230 feet wide. Its gross weight is 278,000 pounds.

It can carry 10,000 pounds of bombs as far as 10,000 miles and up to 72,000 pounds for shorter distances.

53rd Airborne Holds Reunion

Chicago, Sept. 18—(AP)—The 53rd Troop squadron, which flew allied airborne troops into Africa, Italy, Sicily, England, France and Holland, is holding a reunion.

Former air troopers from every section of the country are attending the meeting, "which is strictly social," a spokesman said.

The reunions—this is the second—were arranged by former trooper Jack Jones of Jackson, Miss. About 150 men and their families, many of whom flew their own planes to the reunion, were in attendance.

Registration For Peacetime Draft Is Completed

Washington, Sept. 18—(AP)—Registration for the peacetime draft wound up today as the last of the nation's 18-year-olds reported.

Signing up started August 30 with the 25-year-olds. From now on, youths will report to their local draft boards as they reach the age of 18.

The 20,000 special registration centers across the country will close. Selective service headquarters here had no idea how many young men are on its book, and officials said they will not know until next week.

National headquarters said it has had no reports of delinquencies, but added that heavy penalties are provided for failure to register. The maximum is five years' imprisonment, a \$10,000 fine, or both.

Republican Terms League Of Women Voters Demo Hoax

By The Associated Press
Morrison—State Representative George Brydia (R-Frontenac)

has termed the League of Women Voters "strictly a New Deal political organization."

In a speech last night sponsored by the Whiteside county Republican central committee, Brydia said "many women are being duped by the league's claims of non-partisanship. Behind the scene manipulators have been able to pull the wool over the eyes of Republican women in Illinois."

"These manipulators were smart enough not to try to have the whole Democratic ticket endorsed but picked out two or three candidates for top offices and saw to it that party workers in each supposedly non-partisan group put through endorsements for them."

"With the Democratic party on its way out, the woman voter propaganda line is being worked to its utmost in an attempt to salvage a New Deal office holder here and there."

"There are some smooth talkers and fast workers holding key positions in the women's organization. Officers of the state League of Women Voters were unavailable for comment."

Spy Probers Tell Of Insecurity In Wartime Code

Washington, Sept. 18—(AP)—Congressional spy hunters made public today testimony of a former ambassador to Russia that President Roosevelt shared "the general impression" that the State Department secret code during the war was "not secure."

The testimony was given to a one man subcommittee of the House on American Activities committee at Los Angeles last Thursday by ad. W. H. Standley, retired. He was ambassador to Russia from February 1942 until October 1943.

The subcommittee consisted of Rep. Richard M. Nixon (R-Cal.) Standley testified that President Roosevelt occasionally used the Navy code instead of the State Department code in sending messages to the ambassador because he was concerned over leaks of information.

"It was the general impression," he said, "that the State Department codes were not secure."

Standley said the Navy code was substituted because it was known to never have been broken "and probably has not to this day."

He said it was "common knowledge at that time that there were leaks from the State Department" and that the codes "were insecure."

After Sixteen Babies Naming Becomes A Task

Joliet, Ill., Sept. 18—(AP)—A Joliet couple was puzzling today over what to name their baby.

Their indecision is understandable, because it is their 16th child. Mrs. Nora Baker, 37, gave birth to a boy yesterday at St. Joseph's hospital here, bringing the family tally to an even eight boys, eight girls. All the children—ranging up to a 20-year-old son—live at home. None are twins. Mrs. Baker and her husband, Raymond, 45, have been married 21 years.

The father is recovering from pneumonia in the same hospital as his wife and newborn son. His first plans after he is well are to look for a new home. The entire family has been living in a seven-room house here.

Asked today what they planned to name the boy, Baker said he favored the name John.

But Mrs. Baker had other ideas. "I'd like to name him 'Enough,'" she said.

Train, Car Collide; Four Members Of Softball Team Die

Champaign, Ill., Sept. 18—(AP)—Four members of a VFW softball team were killed today in a collision between their automobile and a Wabash passenger train at nearby Homer.

The men were members of the Lawrenceville, Ill., VFW post team. They were enroute to Maywood, Ill., to play in a softball tournament.

The dead are Arthur Randolph Pond, 23, of Rt. 1, St. Francisville; Raymond Balding, 31, Lawrenceville; Ray S. Milligan, 23, Lawrenceville; and Gerald Tingley, 22, of Darwin.

The accident occurred at the Wabash railroad crossing on U. S. highway 49 in Homer. The automobile, driven by Tingley, was smashed to pieces and its occupants died instantly.

Dr. W. F. Lamkin, Champaign county coroner, quoted the engineer of the train, John Kendall of Cisco, Ill., as saying the train was going 72 miles an hour at the time of impact.

Marshall Flying To Paris For U.N. Meeting

Washington, Sept. 18—(AP)—Secretary of State Marshall flies to Paris tomorrow for a United Nations Assembly meeting that may produce a fateful showdown with Russia over the blockade of Berlin.

Whether this showdown actually occurs probably was determined to a considerable degree in Moscow today at a meeting between Soviet Foreign Minister Molotov and the envoys of America, Britain and France.

Molotov was expected to indicate finally Russia's attitude toward lifting the blockade. There was intense interest here as to whether the Russian leader would say "yes," "no" or try to stall off the day of decision awhile longer.

Molotov as well as Marshall, Britain's Foreign Minister Bevin and the French foreign minister are all due to be in Paris at the same time. There has been considerable speculation here that the Moscow talks on the Berlin crisis might be taken up directly by these top level ministers in informal talks outside the United Nations session. However, it can be reported on excellent authority that up to today no plan had been made for any Big Four foreign ministers discussion of the Berlin crisis. Responsible American officials were notably unenthusiastic about the idea, contending that if Molotov wants to arrange any high level conference on Germany he must first lift the blockade.

Indict Circuit Judge On Income Tax Evasion Count

Monett, Mo., Sept. 18—(AP)—Circuit Judge Emory E. Smith, indicted yesterday on federal income tax evasion charges, asserted today information in the case was made available before the matter was ever presented to a grand jury.

"Undoubtedly the information furnished Drew Pearson came from a branch of the government," said the veteran jurist and southwest Missouri Republican leader.

"It seems very strange, indeed, that before my case was ever presented or considered by a federal grand jury all the information possessed by federal officials was made available to Drew Pearson for use in his assault against me."

Judge Smith, who was charged with evading payment of more than \$8,000 in federal income taxes for six years, said the income tax department never had sent him "any statement of any tax which it contends I owe."

Thunderjet Falls Apart In Mid-Air, Pilot Uninjured

Dallas, Sept. 18—(AP)—An air force Thunderjet, traveling more than 600 miles an hour, flew apart in full view of thousands of spectators here today, but the pilot parachuted to safety and remarked, "That's a hell of an airplane."

Lt. W. M. Hart, 23, of Walker Air Force Base at Roswell, N. M., floated into Mountain Creek lake near Hensley Field where his speed flight was billed as the feature of the Air Force Day celebration here. He was rescued in about two minutes by a Dallas man motorboating with his son.

Hart's only injuries were shock and a slight cut over the right eye. Hart had just sped his jet past the spectators at an altitude of about 100 feet. When he had flown about a mile beyond the crowd, he began a shallow climb. He had pulled the plane to about 300 feet when it disintegrated.

The American effort exceeded by 245 tons of the wartime air freight records set Aug. 1, 1945 by airmen who flew supplies from India to China over the "Hump."

Allied Air Lift Makes 895 Trips Into Berlin

Berlin, Sept. 18—(AP)—The British-American air lift supplying Berlin smashed all records today with 895 flights into the city, blockaded by the Russians for three months.

Celebrating Air Force Day, U. S. airmen flew in 5,572 tons of coal in 651 flights in the 24-hour period ending at noon. Royal Air Force cargo planes made 244 flights.

Credit Controls May Cut Used Car Prices

Washington, Sept. 18—(AP)—Creditives here said they were not worried about sales of new cars, observing that:

1. The new control requirements a third down in cash and the rest in 18 months (15 months, if the credit balance is under \$1,000)—are little if any stiffer than past terms of major auto finance companies.

2. The backlog of orders on hand now is big enough to absorb all the new cars that can be turned out in the next two years—at which time the credit controls are scheduled to expire.

Some said they already had lowered the amounts they've been paying for "new used" and late model used cars in anticipation that stiffer credit terms will make them harder to resell.

And some finance men expressed the view that the controls, by forcing high monthly payments, will put late model cars beyond the reach of many families with incomes up to \$4,000 or even more.

With half the nation's families having incomes under \$2,300, the number of squeezed out of the market could run to millions.

For cars costing \$1,800, which is the low price field today, the required terms would run \$600 down and roughly \$80 a month for 18 months.

The monthly payments alone would take one-fourth the monthly income of a \$3,840-a-year family, while operating would swell the expense further.

Auto manufacturers' representatives here said they were not worried about sales of new cars, observing that:

Opens Bid For Re-Election In Corn Belt

Dexter, Ia., Sept. 18—(AP). President Truman told a yelling Corn Belt crowd today the Democrats are fighting the farmers' battle against "glut-tions of privilege" threatening agriculture with "another Republican blight."

For their own "protection," Mr. Truman said in a major campaign speech, farmers ought to vote Democratic this fall.

The president spoke from a bunting-draped stand in the middle of a trampled alfalfa field, at a national plowing match on a farm near Dexter, Iowa.

First Big Speech
It was the first big speech on a 9,500 mile, 19-state political stump tour.

Mr. Truman looked out across acres on acres of rich, rolling land where corn was ripening under a friendly autumn sun.

He looked at a crowd estimated variously at 80,000 to 110,000—chiefly men and women who make their living from the soil, people from many states.

Mr. Truman told a reporter that officials of the plowing contest told him 110,000 or "ten acres of people" heard his address. Lt. David Herick, area chief of the state highway patrol, earlier had estimated the crowd at slightly more than 80,000.

Speaks From Train
It was the seventh presidential speech of the day, with more on tap en route to Missouri and a Sunday at his Independence home.

Mr. Truman also reached for farm belt votes from the rear platform of his special campaign train as it streaked across Iowa on the strenuous dawn-to-dark tour.

Mr. Truman was up at the first flicker of dawn to start cultivating voices, take some cracks at Congress, greet politicians along the way and appeal for a heavy turnout at the polls in November.

Speaks At Rock Island
The sun was just breaking above the horizon when he started his fast pace with a short speech at Rock Island, Ill. Then he crossed the Mississippi river to Davenport and started stamping Iowa.

Police Captain T. E. Murphy figured the Rock Island turnout at 3,000. More thousands cheered Mr. Truman on his way through Iowa.

And in Iowa Mr. Truman was trying to boost also a political comeback for former Senator Guy Gillette, running for the seat now held by Republican Senator George Willson.

At Rock Island, the president also put in a plug for Paul Douglas, Democratic senatorial candidate in Illinois.

U.S. Authorizes Establishment Of Dental Institute

Washington, Sept. 18—(AP)—The federal government began a more centralized attack today on teeth and their troubles with formal establishment of the National Institute of Dental Research.

Congress authorized \$750,000 a year for the program, which will include research in laboratories at Bethesda, Md., as well as financial grants to other institutions for research and training of dentists.

The new institute will have equal rank with the National Cancer and Heart Institutes and the Institute of experimental Biology and Medicine.

Dr. H. Trendley Dean, a native of East St. Louis, Ill., has been named director of the new dental institute. He has been in charge of dental research at the National Institute of Health since 1931.

FIRE PROTECTION IN MEREDOSIA

(From the Meredosia Budget)

The first wail of the siren in Meredosia announces that someone's home or property is on fire and will be destroyed unless help comes. You wait and listen, realizing that each second, that fire is destroying more property and getting farther out of control until you hear that second siren and the fire engine is on its way. Then you wonder if there will be anyone there who knows the proper means of using the pumps on the engine. Well, it wasn't a bad fire and they got it put out.

That's been the picture in the past. Fortunately, the community hasn't been the victim of a bad fire in a number of years—but that doesn't make Meredosia immune to fires.

It has been a known fact the past few years that too few men in this community are capable of operating the fire engine. There has been cases where no one with that knowledge was immediately available and much damage has been the result. Then too, while plenty of men turned out to fight fires, there was a general lack of knowledge and organization that made for much wasted effort.

NOW, a group of men in Meredosia are interested in taking steps to correct this situation and reduce the dangers of a disastrous fire in our community. How many more men are also interested in protecting their property as well as their neighbor from destruction by fire?

Meredosia has the equipment. Meredosia has the manpower. An organized volunteer fire department is being planned to make the most efficient use of both in combating fires. Let every Meredosia citizen be at the High School next Wednesday night, September 22, to take part in the organization of an efficient fire fighting organization for this community.

Mt. Emory Church Tag Day Will Be Next Saturday

A tag day to raise funds for the final payment of \$85 on a contract to repair and decorate the exterior of Mt. Emory Baptist church will be held next Saturday, Sept. 25. Officials of the church hope that the entire amount will be raised during the day, bringing to completion a project which cost a total of \$3,335.

Sam Harris, a former deputy sheriff and police officer, is general chairman of the tag day committee. "This is a worthy cause," Mr. Harris said Saturday, "and we people of Mt. Emory hope that the public will contribute generously to the repair fund. More than \$2,000 has already been paid on the contract, and the money raised next Saturday, Sept. 25, should clean up the debt."

Rev. A. V. Harris, pastor, said that more than 20 women of the congregation will be supplied with tags, and will spend the day in the business district. Each will carry a container for coins, and contributors will be given a tag.

The outside of Mt. Emory church, a brick structure, has been tuck-pointed and water-proofed, the steps have been repaired and other improvements made.

Eye in the Sky!

There is an old saying that an ounce of prevention is worth a pound of cure.

That is why we try to detect flaws in our system before they become serious enough to cause interruptions to your service.

To help accomplish this, we have now taken to the air. From a slow-flying plane, keen, trained eyes follow the lines spotting parts that may require repair or replacement. Many miles of lines per day can be inspected and inspections can be made more frequently—with less likelihood of needed maintenance going undetected.

It's another step forward in our program of planning and improving—aimed to serve you better, to give you the best electric service possible.

Some Calves and a Shinn Make Pretty Pictures

If you're interested in calves, you might like the one at left, above—no, not THAT one—the four-footed one. It's a pedigreed Jersey calf, named Annabelle, and is an entry in the Los Angeles County Fair at Pomona, Calif. The other calf belongs to comely Gwen De Voli, Princess of the Livestock. Maybe you're not interested in calves. For you we present Diana Shinn, at right, San Francisco night club dancer, leading contestant for the title of Queen of the forthcoming Portola Festival. The festival celebrates the third discovery of San Francisco Bay by Don Gaspar de Portola in 1769.

THE BACKDROP
Remember when an ornate backdrop was almost as important a part of a photographer's equipment as his camera? Wonders of Television

Described In Club Paper

The South Side Circle met in the County Fair room of the Dunlap hotel Friday afternoon with Mrs. W. L. Robertson as hostess. Miss Beatrice Robertson assisted her mother as hostess.

A business session was held with Mrs. Julian Hall presiding and Mrs. Florence Epler, acting secretary, in the absence of Mrs. Harrison Weaver. Mrs. R. G. Baker had charge of the program of the afternoon and was presented by Mrs. E. G. Caldwell, program chairman. Her paper was on "The Progress and Development of Television in America."

She told of her recent visit to Los Angeles, Calif., where television is most successful and told of the few radio programs that are now being televised. At the beginning of the year 1948, there were approximately 150,000 sets in use and it is predicted by the end of the year there will be 750,000. The year of 1948 will go down in history as the first time the political convention could be seen as well as heard by the millions of listeners.

Roll call was answered by 17 members and five guests by naming their favorite radio programs.

Refreshments were served during the social hour. The next meeting will be held at the home of Mrs. Florencia Tomlin in Springfield on October 1, with Mrs. C. R. Short, hostess.

"ONE CHILD OUT OF EVERY THREE WHO DIES IS KILLED IN A TRAFFIC ACCIDENT"
This is a shocking statement about a shocking reality, isn't it? It must be remedied. Thru the leadership of the National Safety Council, I, along with more than 1,100 other General Tire and Rubber Company distributors across the United States, have joined in a safety campaign to "Give The Kids a Brake."
We want everyone in the United States to join us in the cause. It's a big job. A job that requires the cooperation of every man and woman who sits behind the wheel of an automobile.
Listen to more facts that make us realize our responsibility. Motor vehicle accidents in 1946 caused 1,600 deaths and 55,000 injuries to children less than 5 years of age and 2,600 deaths along with 145,000 injuries to children 5 to 14 years of age. Almost two-thirds of the deaths and injuries were the result of children being struck when they were pedestrians. About one-eighth occurred when the children were on bicycles. Although only one out of six of the country's total population is in the 5 to 14 age group, one out of three of all injured pedestrians was in this age group. This makes the pedestrian injury for the 5 to 14 age group the highest rate of any group in the country. Of all the pedestrians injured in traffic almost half are children. Is it any wonder then that we urge: "Give The Kids a Brake?"
These facts warn us of our responsibility. Our "Give The Kids a Brake" campaign has been timed just as the youngsters return to their classrooms. They travel to and from school almost unguided in many cases, and the actions of youngsters are unpredictable. They have been warned again and again not to dash into thoroughfares, but so often they do not heed the warning.
And so, the responsibility rests with us. Let us all maintain constant vigilance and take an active part in the campaign to "Give The Kids a Brake." We'll have a happier community and we will give our kids a chance to grow up in safety.
Thank you very much.

GOOD FARMING METHODS PAY

Putting into practice the sound methods of soil conservation recommended for Morgan County farms pays—in profits which may range from 20% to more than double the amounts received under the old methods.

University of Illinois records show that on 64 farms having less than 3% slope, corn yields were increased 9.6 bushels per acre by contouring alone. Of course, contouring is just one of the many practices that should be included in a good soil conservation program.

The Farmers State Bank is interested in you and your farm. We are always ready to work with and for you in ways that will make farming more profitable. If our co-operation will help you in your plans, we'll be glad to be of service.

UN Gets Three-Year-Old Headache---Italy's Colonies

Here's a play-by-play run-down on the years-long squabbling over Italy's African colonies that resulted in the game being called on account of no progress.

(1) In 1945, Big Four's Council of Foreign Ministers agreed colonies should not remain under Italian sovereignty. U. S. proposed Big Four trusteeship under the UN. Russia monkeywrenched this by demanding Soviet trusteeship over Tripolitania. This was turned down. Russia then approved a French plan for Italian trusteeship, but Britain said "No dice" on that and countered with a plan for immediate independence of the colonies. Russia squawked loud, saying it was a case to keep colonies under British domination. France, too, objected. Independence might give her colonies ideas. SCORE: No hits, no runs.

(2) In spring of 1946, Council of Foreign Ministers postponed further consideration and agreed that if no agreement was reached by Sept. 15, 1948, the UN General Assembly would be asked to pinch-hit for the Big Four. The Italian peace treaty provided for continued discussion by the foreign ministers' deputies. They conferred in London in 1947, got nowhere. SCORE: No hits, no runs.

(3) Early in September, 1948, Russia called for another Foreign Ministers' meeting in Paris, but U. S. couldn't see much point to it. So the deputies met again on Sept. 14 and 15. Russia, which had promised Italian Communists to fight for the return of the colonies to Italy, created a sensation by about-facing and proposing international control under a UN administrator. But now the U. S. had switched, in favor of maintaining the present set-up—British administration. After day-and-night hickering, the deputies gave up. They tossed the hot potato to the UN General Assembly for its September 21 meeting. SCORE: No hits, no runs, one lateral pass.

It's up to the United Nations to decide the fate of Italy's prewar African colonies. Seeing the colony problem as part of the cold war with Russia, the Western Allies will battle for continued British military control. Russia's demand for international control by UN, a dramatic reversal of her previous stand, is considered a move to win the Soviets a foothold in the strategic Mediterranean area.

**Vows Exchanged
By Elsie Crowe,
Glen E. Clark**

Miss Elsie Crowe, daughter of Mrs. Elsie Elliott, 232 Westminster street, became the bride of Glen E. Clark, son of Mr. and Mrs. Ira Clark of White Hall, in a four o'clock ceremony which took place Sept. 11 in the rectory of the Church of Our Saviour.

The single-ring service was performed by the Rev. Father John Morris in the presence of members of the immediate family. The attendants were Mrs. Doris Indelicato of Roodhouse and Richard Kelly of White Hall.

The bride was attired in a street-length dress of ice blue kohama crepe, fashioned with Grecian cape sleeves, jewel neckline and gored skirt. Her accessories were black and her corsage was of white gardenias surrounded by pink rosebuds. A white lace handkerchief, lent her by Mrs. Charles Nergensah of Chapin, who carried it at her own wedding 50 years ago, completed the ensemble.

A two-piece dress of dove gray crepe with gold trim was worn by Mrs. Indelicato. She wore black accessories and a corsage of pink and white rosebuds.

For her daughter's wedding, Mrs. Elliott chose a dress of teal blue crepe, designed with draped bodice, side drape, three-quarter length sleeves and silver and pearl head trim. Her accessories were black.

List Entries For 100-Mile Race At Springfield

Springfield, Ill.—National Auto Racing Enterprises today released the official entry list for Sunday's 100-mile AAA-sanctioned 100-mile auto race at Illinois State Fairgrounds track, the fastest dirt flat mile oval in the world.

Sixteen cars will face the start at 3 p.m. (D.S.T.) Sunday for the second 100-mile classic presented here within 30 days. It is one of two remaining on the American (Automobile) Association calendar for 1948.

Ted Horn, the Paterson, N. J. speed king, striking for his third consecutive national championship heads the list of entries. Never further back than fourth in the last nine 500-mile races at Indianapolis, Horn won the title in 1946-47 and needs only to repeat to make auto racing history—the first three time winner.

The world mile record for a flat dirt track is held by Myron Fohr, another of the more than two dozen drivers who will try for one of the 16 starting berths Sunday. This mark—36.42 seconds—nearly 100 miles an hour, was set last Aug. 21 Horn won that race.

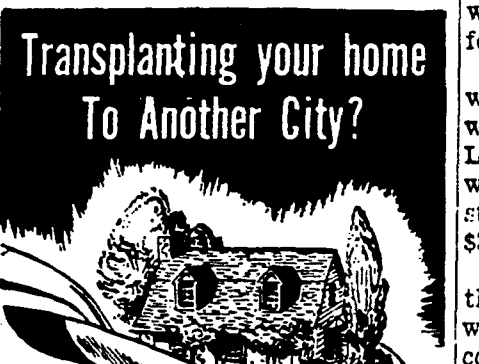

The world 100-mile record, one hour, four minutes, 51.08 seconds, was set here last Sept. 25 by Tony Bettenhausen. Officials awaited word from Bettenhausen's physicians as to whether he will be allowed to drive. He burned his legs at DuQuoin Sunday when his car (which) developed a fuel line leak.

Drivers slated to appear: Ted Horn, Charles Vanacker, Rex Mays, Johnny Parsons, Emil Andres, Myron Fohr, Lee Wallard, Spider Webb, Johnny Mantz, Bill Sheffler, George Connor, Mel Hansen, Paul Russo, Hal Robson, Mike Slay, Duke Nalon, Jackie Holmes, Walt Brown, Ken Fowler, Ted Duncan, Johnny Byrne, Floyd Davis, Duke Dinsmore, Bill Cantrell, Charles Rogers and Tony Bettenhausen.

Top Dirt Track Racers Coming To Fairgrounds For Sunday Speed Card

Top-flight dirt-track drivers from throughout the middle west will gather at the Morgan county fairgrounds Sunday afternoon to take part in a five-race program being staged by the Mutual Racing Association and the Jacksonville Zingabard Grotto.

Several thousand racing fans are expected to witness the card, the first of its kind staged in this city.

Nineteen Entries

Grotto officials said Friday that they have received entries from nineteen drivers. The races are open to anyone whose automobile meets the requirements. Members of the Mutual Racing association will make up the larger portion of the entries, but several other drivers, including two from St. Louis, will also be here.

Officials of the Mutual association have announced that this will be the final sanctioned event this season.

Under the rules of the Mutual group, only the top drivers in each race receive prizes. No money is paid for appearance and all drivers must finish in the first division of their race to receive an award.

Every precaution has been taken for the safety of the spectators. A snow fence has been erected completely around the track. This will not only protect onlookers, but will also aid the drivers.

An ambulance and a physician will be available on the grounds. Dr. Paul B. Hartley will act as official physician.

Judges and Starters

Eight judges and two starters were named Friday by the Grotto. Allen Brunk and Merl Ingels will set the racers on their way. The judges are Wayne Dalton, Oliver Gabberty, Warren Ross, Perk Chumley, Howard Davenport, John May, Red Blankenbaker and Glen Beeley.

Six cars will compete in each of the first three races. The events will be elimination affairs, with the best drivers returning later in the day for the feature event. The fourth race will be a consolation race for losing drivers. All of the first four events are slated for 10, 15, or 20 laps.

The final race, which will be the feature, will go 20 laps.

Shirley Graff, Formerly Of Here, Weds At Joy

In a simple ceremony which took place Sept. 12 at the home of her parents in Joy, Ill., Miss Shirley Graff became the bride of Delbert Green, son of Mr. and Mrs. Fred Green, also of Joy.

The bride is the daughter of Mr. and Mrs. Martin Graff, formerly of this city, and the granddaughter of Mr. and Mrs. John Marshall, 345 Webster avenue, and Mr. and Mrs. Owen Graff 349 West Beecher avenue.

She is well known here, having attended MacMurray college. Her former college roommate, Laura Lee Richards, and her cousin, Jean Ellen Voegel, both students at MacMurray, were bridal attendants at the wedding.

Mr. Green attended Western State Teacher's college at Macomb. He is now engaged in farming. The couple will reside near Joy, upon returning from their wedding trip.

The bride's grandparents attended the wedding.

Carrollton Upsets White Hall Eleven In Non-Loop Game

White Hall—Carrollton punched over for two fourth-quarter touchdowns here Friday night to score a mild 12-6 upset over the White Hall Maroons in a non-conference tilt. The game was the season opener for both teams.

White Hall tallied in the first chapter, but after that Coach "Buzzy" Bradley's visitors held the hosts without a marker, then shoved over two of their own.

White Hall racked up 12 first downs to Carrollton's six, but the Hawks had the power when it really counted—when they were near the goal line.

Milnes, one of the White Hall backs, was injured twice during the game.

A pass from Milnes to Strang set up the White Hall marker. And then Coach S. N. Walker's chucker connected on a flat pass to Wyatt for the score. A kick for extra point was blocked.

Linn and Staples combined their running ability to set up the first Carrollton touchdown. Staples finally went over from the one-foot line. A plunge for extra point was short.

A pass interception by Staples gave the visitors the ball a short time later. Linn and Brannan moved nearer pay dirt and a 15-yard penalty put the pigskin on the three. Brannan counted through left tackle. Again a plunge for extra point was no good.

TRYST

THE STORY: Dying in the Indian desert, British secret agent Hilary Shenstone feels a desperate need to get back to England and to Nuns Farthing, his family home. He doesn't know the house has been let and that dreamy, 17-year-old Sabrina, whom he has never met, has adopted his old room and eagerly awaits his return. Hilary does return to England and to Nuns Farthing—after death. When he sees Sabrina, he realizes she is the girl he would have loved if he had lived. Hilary's room is locked after George, his brother, brings word of his death. Sabrina broods until Mrs. Pilton, the housekeeper, unlocks the room again for her. Sabrina knows then that Hilary has come home. But Aunt Effie, beginning to feel a strangeness in the house, is upset when she finds out that Sabrina is once more using the room. She persuades Sabrina's father that they must move from the house and that Sabrina should go to a school in Switzerland.

XXVI
Hilary's next morning in a very anxious state of mind, expecting to hear more about the lights in Hilary's room. But Father was behind the "Times," as usual, and Aunt Effie seemed quite normal, remarking as she left the table that she had letters to write. Sabrina went out into the garden to cut fresh flowers for Hilary's vases, and collected Muffin on her way upstairs. When she set him down inside the door he went at once to the window seat, jumped up on the sun-warmed cushions, rolled over to have his stomach rubbed, and began to purr loudly.

She watched him a moment, amused. His passion for Hilary's society endeared him to her. She envied him too, in his complete familiarity with the invisible presence which roused in herself no fear or strangeness.

"You can tell your friend Hilary to be more careful about these lights," she addressed Muffin severely, as she spread down yesterday's newspaper to lay the faded flowers on, and began to collect the vases to be changed.

Aunt Effie's mind was just settling down again, and now he's gone and got her unsettled. "I'm sorry about last night," said Hilary, very contrite. "But I always did like lots of light."

Sabrina returned from the bathroom with a vase full of fresh water in each hand. She placed them on the desk and began to fill one with roses and one with tall delphiniums which raised their pale blue spires well above her shining head.

"Have you any idea how pleasant it is for me to see you come into this room with your arms full of flowers?" he remarked irrelevantly.

SHE was wrapping up the faded flowers neatly in the newspaper to take away downstairs. She put the newly filled vases back in their places, and took a dust-cloth out of the desk drawer. "I must say he's a very tidy person to keep house for," she remarked. "No cigarette ash scattered about, no laundry to send away, no—"

She stood still, looking down at the seat of the armchair under the reading-light. A book lay there—a book she had never taken off the shelf. And the loose silk cushion was crumpled down into the corner against the arm.

"Wrong again," said Hilary uneasily. "I'm getting careless. I meant to put it back."

Behave sensibly, Sabrina, she told herself, he can see you. Behave as though it was not unusual of him to leave things lying about. Be tactful, Sabrina.

Almost automatically she reached for the cushion and plumped it and set it back in place. Then, more slowly, she picked up the book he had been reading. It was black, with its title in gold letters—"True Ghost Stories."

"We haven't read this one, Muffin," she remarked very casually, and only her eyes betrayed her, large and brightly blue, with languid lids. "I wonder if it's any good."

"Well, I didn't find it very helpful," Hilary admitted, adoring her gamineness. "I was hoping to learn something about the technique. The trouble is, they all take their haunting so seriously. It's too bad I haven't got some chains to rattle!"

She searched the shelves briefly and returned the book to the empty space it had left, then went on with her dusting, silent and very thoughtful.

THE misplaced and forgotten book was the third tangible evidence of his actual presence in the room, without counting Muffin's behavior. And each time the same suffocating excitement pervaded her, which contained no element of fear. Each time too he seemed almost to emerge a little from invisibility.

The days went by uneventfully, and she kept house for him. No dust collected on the polished surfaces of his mahogany, and the cushions were always shaken up and set by the ears at the proper housemaid's angle. He found that if he persistently left the same book off the shelf he would read it. Or sometimes she had already read it, and would tell Muffin what she thought of it. Most of her conversation with Muffin included Hilary as well.

And Hilary, watching her, knew that he was in love with this little earthling, as surely and as deeply as though he had come back whole in his man's body and found her living here in his home—a love so strong and inevitable that even death had not robbed them of each other. A mistake had been made somewhere, and one bullet got astray to drop him in the desert. Then repatriation was swiftly made, too, as far as it could go. He had returned to Nuns Farthing, and slowly the distance between them was narrowing, by her instinctive trust and faith in him, by his increasing comprehension of himself as he now was.

Flawless emeralds are very rare and are about twice as costly as diamonds of the same size.

The caravan had staged an earlier rally in Pittsfield and finished the week's campaigning with a night meeting at Quincy.

Fred A. Cain of Jacksonville, state central committeeman from the 20th Congressional district, was the presiding officer.

Assail State G.O.P.
The group heard the three candidates blast the Green administration and call for an enthusiastic personal campaign on the part of local Democrats in the fall election.

Ben O. Cooper, aspirant for the office of auditor of public accounts, was the first speaker to arrive from Scott county. He lashed "the combination of organized crime and the state government," pointing to recent revelations and allegations which have followed the Shelton murder in Peoria.

Sees Vote Fraud
He also warned local Democratic workers to be on guard against fraudulent counting of votes.

"The administration has a slush fund of \$450,000 to scatter among the judges of 40 counties. Irrespective of how the people vote, they hope to count the votes for the administration. This is what happened in 1944," he charged.

Attaches of the caravan declined to name the counties.

Stevenson used as the theme of his discourse a statement made by his opponent, Dwight H. Green, in which the state's chief executive said the people were tired of false promises, that they wanted honest government.

Hits Green's Policies
He blasted the administration for "its greatly enlarged payrolls, its shake-downs of civil service employees, its fraudulent handling of Elmer H. Droste's primary petition and its criminal negligence of coal mine safety measures."

The audience cheered when he declared, "The miners at Centralia died while the state mine examiners were out soliciting campaign funds to beat Kennelly, the best mayor Chicago has had in generations."

"We owe it to ourselves and to our posterity to clean up Illinois and to restore her to her rightful place in the nation," Stevenson concluded.

Defends Truman
Ivan Elliott, former Whiteside county state's attorney and candidate for attorney general, continued the condemnatory pattern of the rally by assailing the policies of his opponent, George F. Barrett.

"Barrett's policies are almost the opposite of my ideas," he declared, asserting Barrett's investigation of crime and vice in Sangamon and Peoria counties "has all the earmarks of a white-wash."

Elliott defended the policies and administration of President Truman and urged energetic work on the part of Democrats from now until election day.

Lawrence, Kas., Sept. 18.—(P)—A beefy Texas Christian university football team outlasted Kansas' Jayhawks for a 14 to 13 victory Saturday in a game marred by fumbles and blocked kicks.

An estimated 26,000 fans, largest crowd ever to attend a Kansas university home opener, watched the lighter Jayhawks battle the big horned furies before dropping their first regular-season loss in 15 games.

The sweltering heat took the edge off offensive play and both teams appeared spent after the first half.

Blocked punts accounted for two touchdowns—one for TCU and one for Kansas—and a fumble set up another marker for the Texans.

Austin, Tex., Sept. 18.—(P)—The Texas Longhorns showed power and speed against Saturday as they whipped the Louisiana State Tigers 33-0, with the largest opening game attendance in history—47,500—watching the one-sided game.

With Quarterback Paul Campbell filling the shoes of Bobby Layne in capable fashion, the Longhorns smacked across the goal line in every period except the second.

The Tigers did not make a serious scoring threat, and it was the fine punting of their fullback, Rip Collins, that kept them from perhaps a worse defeat.
